

Filtering Tools

This section of the EPISODES Platform Documentation contains user guides dedicated to applications belonging to the *Filtering Tools* category. These applications transform the data by applying filters - their resulting data files are of the same type, but their content is filtered. The applications may be used for preparation of data for other applications. To access them on the EPISODES Platform, please use this direct link: <https://tcs.ah-epos.eu/#apps:categories=Filtering+Tools>

The following list contains links to user guides describing usage of applications from the current category.
