Log in and activate your account

After sending the registration form user can already log in to PLGrid Portal.

In order to proceed with applying for affiliation, grant and services, user has to activate the account by clicking on the link received in the welcome message (sent to e-mail address provided in the registration form).

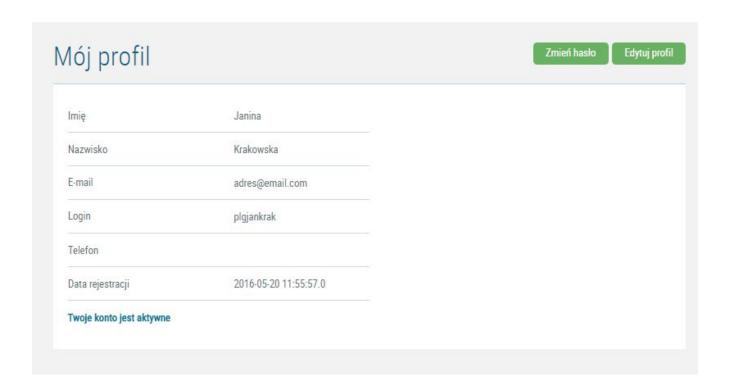

Since the activation link is active only for 48 h after its creation, user has a possibility to resend the message containing the link by clicking the option: " Wyślij jeszcze raz" (Resend welcome message) at the User's Profile view ("Mój profil").

Important

Inactive accounts will be deleted 4 weeks since registration.

After email address activation user's account status changes to ACTIVE ("Twoje konto jest aktywne"). The notification is visible at User's Profile view.

Active account without an affiliation allows for access to PLGrid basic services only, in particular it does not enable to use computational, storage or cloud resources. In order to access these resources user needs to report details of their affiliation at the Affiliation view ("Afiliacja").
